VIRGINIA POWER

May 28, 1987

Mr. Chris Corbett
Enforcement Project Officer
U.S. Environmental Protection Agency
Region III
841 Chestnut Building
Philadelphia, Pennsylvania 19107

Dear Mr. Corbett:

Re: Chisman Creek Superfund Site

As you know, Virginia Power is continuing to move forward with the final engineering and design of the Chisman Creek remedial action including the design of recreational facilities at Sites A and C. We have previously provided certain drawings and specifications to various representatives of the several agencies and organizations involved with site. This letter is to establish a formal and consistent distribution system for documents, drawings, plans, and specifications generated by Virginia Power during the course of the final design and remedial effort.

Therefore, we will begin formally distributing the following number of copies of documents, drawings, etc. to the following agencies and organizations:

U.S. Environmental Protection Agency - Mr. Chris Corbett (3)
GeoScience Consultants, Inc. - Ms. Virginia Nicholas (1)
Virginia Department of Waste Management - Ms. Pauline Ewald (1)
Virginia Water Control Board - Mr. Larry McBride (1)
York County Administrator - Mr. John Richardson (1)
York County Department of Parks and Recreation - Mr. Robert Kraus (1)
Chisman Creek Stewardship Committee - Dr. Gene Silberhorn (2)

We request that you and the other recipients of this letter advise us if this distribution list needs to be changed.

Additionally, Virginia Power expects to establish a construction headquarters site in the next few weeks at the site and to provide telephone number for citizens to use to locally obtain information and provide comment about the remedial action.
